“I had the best possible experience with [my doctor] at UHS. She was very thorough, helped me to understand my diagnosis, explained the medications, and directed me to the specialists I needed. I am certain that without her care/ advice, my condition would have affected my academic outcome. Instead, I am prepared, informed, and confident that if I need care in the coming weeks, I can go to General Medicine for a solution. The nurses are also great - very caring and helpful.” —UT Student
