Dell Medical School

### You may qualify if you:

- Are currently experiencing symptoms of depression (with or without anxiety).
- Are 18-65yo and fluent in English.
- Are willing to undergo MRI and EEG procedures.
- Are willing to take Sertraline/Zoloft (an FDA approved, once-daily medication for treating depression and anxiety).
- Can visit the laboratory several times over the course of 8-10 weeks.

Participants will undergo clinical assessments, MRI/EEG procedures, and receive an 8-week course of antidepressant medication monitored by a board certified psychiatrist.

**Participants will receive pictures of their brain!**
