I’ve said this already and will say it a million times over, I LOVE UHS. I have been to doctors all of my life and I’ve never been so satisfied. You all are amazing, from the check in staff to the nurses to the Dr. Thank you so much for your caring attitudes and your willingness to help!

—UT Student

It warms my heart to know that there’s people who are not related to me in any way but that have a great deal of care for me and my health. I’m honestly really impressed with this and the overall system of services that the UHS offers. Definitely one of the best things the University of Texas has to offer. I thank you.

—UT Student

This campaign contributed to a 19.5% increase in HPV vaccinations at UHS in October 2017 compared to the same period last year.

Over the course of 10 weeks in spring 2018, 106 unique students participated in this group exercise program.
